

The Power Is Yours

Save electricity—and money—with help from your hometown utility.

Whether we're trying to save dollars or trying to save the planet, we all know that reducing our electrical consumption is an important thing to do. But sometimes it's hard to know where to get started.

That's where we can help. As your local community-owned utility, we're your partner in energy conservation. Take charge of your power bills through one of our conservation programs:

Compact Fluorescent Light Bulbs

Did you know that replacing standard incandescent light bulbs with energy efficient compact fluorescent light bulbs (CFLs) can reduce your lighting costs by up to 75%. Plus CFLs can last up to 10-times longer than regular light bulbs.

Rebates for Energy Efficient Products

Replacing an old energy-hogging appliance or upgrading your home's heating and cooling systems can create major savings. To help our customers make the investment in energy efficient appliances and equipment, your hometown utility offers rebates for qualified, energy-efficient products refrigerators, air conditioners and heat pumps. We have also expanded the program to include Energy Star Qualified freezers and dishwashers. Contact us for more information.
